(25 lbs/11.3 kg  
Capacity at 40ft)

**Extreme**

Capacity: 50 lbs. (22.6kg)  
Height: 33ft (10.6m)  
Reach: 30ft (9.1m)  
Weight (with remote) 179 lbs. (79kg)

**Super Plus**

Capacity: 50 lbs. (22.6kg)  
Height: 30ft (9.1m)  
Reach: 24ft (7.3m)  
Weight (with remote) 151 lbs. (68kg)

**Super**

Capacity: 50 lbs. (22.6kg)  
Height: 25ft. (7.6m)  
Reach 18ft. (5.4m)  
Weight (with remote) 131 lbs. (59kg)

**Giant Plus**

Capacity: 50 lbs. (22.6kg)  
Height: 23ft (7m)  
Reach: 15ft (4.5m)

**Giant**

Capacity: 50 lbs. (22.6kg)  
Height: 19ft (5.7m)  
Reach: 12ft (3.6m)  
Weight (with remote) 103 lbs. (46kg)

**Standard Plus**

Capacity: 60 lbs. (27.2kg)  
Height: 16ft (4.8m)  
Reach: 9ft (2.7m)

**Standard**

Capacity: 65 lbs. (29.4kg)  
Height: 13ft (3.9m)  
Reach: 6ft (1.8m)  
Weight (with remote) 83 lbs. (37kg)

**Junior (Stub)**

Capacity: 75 lbs. (45.3kg)  
Height: 9ft (2.7m)  
Reach: 3ft (.9m)

# Triangle Specs

*The Triangle's modular design, allows you to start small, then expand your system later when you really have the need.*

*The most accurate way to compare jib arms is to use "reach" (not height) as the measurement. Reach is the length from the pivot point at the tripod, to the front of the jib*

Super Plus Shown

One rear section for the Junior, Standard, Standard Plus and Giant

Add second rear section for the Giant Plus, Super and Super Plus  
(add second section to giant to use less counter weight)

Add third rear section for the Extreme
